ADITYA YOGI

Senior Software Developer | +91 8839497272 | adityayogi07@gmail.com

PROFESSIONAL SUMMARY

- Software Developer with **5+ years of experience** in backend and full-stack web development.
- Strong expertise in **PHP, Laravel, CodeIgniter, Yii2, and MySQL**.
- Experienced in developing **scalable SaaS applications, booking platforms, quotation systems, and business management solutions**.
- Skilled in **REST API development, third-party API/SDK integrations, Redis, job queues, and notification systems**.
- Hands-on experience with **Avinode, PandaDoc, SignWell, Firebase**, and other third-party integrations.
- Experienced in **database design, migrations, query optimization, and backend performance improvement**.
- Strong experience in **e-signature workflows, automated document generation, passenger management, and multilingual applications**.
- Experienced in **client coordination, requirement analysis, project management, and team leadership**.

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript, SQL

Frameworks: Laravel, CodeIgniter, Yii2

Backend: REST APIs, Web Services, API Integration, Job Queues, Background Jobs, E-signature APIs, SaaS Development

Database: MySQL, Database Design, Migrations, Query Optimization

Caching & Messaging: Redis, Queue Management, Notification Systems

Frontend: JavaScript, jQuery, AJAX, HTML, CSS, Multilingual Applications

Third-Party Integrations: Avinode API, PandaDoc, SignWell, Firebase, SDK Integration

Tools & Version Control: Git, GitHub, GitLab

Professional: Client Coordination, Requirements Analysis, Project Management, Team Leadership, Problem Solving

PROFESSIONAL EXPERIENCE

Journai Global Pvt Ltd (formerly Desklay Technologies) | Senior Laravel Developer | Mar 2025 – Present

- Lead backend development of **The Private Aviation Company (TPAC)**, a booking and quotation platform for private aviation.
- Integrated **Avinode API** for real-time aircraft pricing and quotation workflows.
- Implemented passenger management, e-signature workflows, and automated document generation.
- Designed and optimized database structures to support scalable booking and quotation workflows.
- Implemented JSON-based data submissions and multilingual application functionality.
- Developed backend features using Laravel, PHP, MySQL, REST APIs, JavaScript, jQuery, and AJAX.
- Collaborated with stakeholders to analyze requirements and deliver scalable business solutions.

Shrinkcom Software Pvt. Ltd. | Backend Developer | Dec 2020 – Mar 2025

- Developed and maintained web applications using **Laravel, CodeIgniter, and Yii2**.
- Designed and integrated REST APIs, third-party APIs, and SDKs including **PandaDoc, SignWell, and Firebase**.
- Developed **Redis-based job queue services** for high-volume email, SMS, and Firebase notification delivery.
- Designed and optimized MySQL databases, migrations, queries, and application data structures.
- Developed SaaS-based applications and backend business workflows.
- Implemented e-signature workflows and third-party service integrations.
- Collaborated directly with clients to gather requirements and deliver technical solutions.
- Led small development teams and coordinated project delivery to meet deadlines and quality requirements.

KEY PROJECTS

The Private Aviation Company (TPAC) | Laravel, PHP, MySQL, Avinode API

- Developed a private aviation booking and quotation platform.
- Integrated Avinode API for real-time aircraft pricing and implemented passenger management, e-signatures, and automated document generation.
- Developed multilingual forms and scalable backend workflows.

Water Billing Management System | Laravel, PHP, SaaS, MySQL

- Developed a cloud-based SaaS billing platform for utility organizations.
- Implemented customer account management, consumption tracking, billing, invoicing, and payment processing.

SMS & Email Wrapper Platform | Laravel, Redis, Job Queues

- Developed a bulk SMS and email communication platform.
- Implemented Redis-based background jobs for scalable message delivery.

E-Commerce Platform | CodeIgniter, MySQL

- Developed a multi-vendor e-commerce platform for pharmacies, importers, and end users.
- Implemented logistics, bulk purchasing, accounting, and ledger modules.

i-Learning Platform | Yii2, PHP, MySQL

- Customized and enhanced an e-learning platform supporting course enrollment and learning management.
- Implemented functionality for videos, documents, quizzes, and course content.

Driving School Management System | CodeIgniter, PHP, MySQL

- Developed functionality for a government driving-school platform supporting theory lessons and practical training workflows.

Restaurant & Tiffin Management System | Laravel, PHP, MySQL

- Developed restaurant and admin panels for daily restaurant orders and scheduled weekly tiffin orders.

Property Booking Platform | CodeIgniter, PHP, REST APIs

- Developed APIs and an administrative panel for property and amenity booking workflows.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science Engineering
Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV), Ratlam
CGPA: 8.1/10 | Year of Passing: 2019

AWARDS & ACHIEVEMENTS

- **Outstanding Performance Award – Backend Development** — Shrinkcom Software Pvt Ltd, 2021
- **Expert Accuracy Award – Backend Development** — Shrinkcom Software Pvt Ltd, 2022
- **Brainiac Award – Innovative Concept Implementation** — Shrinkcom Software Pvt Ltd, 2023
- **Pinnacle Performer Award** — Journai Global Pvt Ltd, 2025
